

# Digital Self Defense for Activist

PufferFish

June 6, 2017

- 1 Threat Modeling
  - Common threats
  - The five questions
  - Exercise: Working with actors
- 2 Digital threats
- 3 Physical threats
- 4 Identifying the assets
- 5 Security indicators: be aware of your environment
- 6 We identified the threat, now what? protection plan
  - How does a protection plan look like
  - The support network
- 7 Do I really need to keep this?
- 8 For more information:

# Basics

Digital Self  
Defense for  
Activist

PufferFish

## Threat Modeling

Common threats

The five  
questions

Exercise:  
Working with  
actors

Digital threats

Physical  
threats

Identifying the  
assets

Security  
indicators: be  
aware of your  
environment

We identified  
the threat,  
now what?  
protection  
plan

Security is not about using tools, is about understanding the thread and how to counter it.

# Digital threat

Digital Self  
Defense for  
Activist

PufferFish

## Threat Modeling

Common threats

The five  
questions

Exercise:  
Working with  
actors

Digital threats

Physical  
threats

Identifying the  
assets

Security  
indicators: be  
aware of your  
environment

We identified  
the threat,  
now what?  
protection  
plan

We have to **learn** how to recognize digital threat

# Personal threats vs group threats

Digital Self  
Defense for  
Activist

PufferFish

## Threat Modeling

Common threats

The five  
questions

Exercise:  
Working with  
actors

Digital threats

Physical  
threats

Identifying the  
assets

Security  
indicators: be  
aware of your  
environment

We identified  
the threat,  
now what?  
protection  
plan

Groups have specific threats

# What does information mean? - WOPS

Digital Self  
Defense for  
Activist

PufferFish

Threat  
Modeling

Common threats

The five  
questions

Exercise:  
Working with  
actors

Digital threats

Physical  
threats

Identifying the  
assets

Security  
indicators: be  
aware of your  
environment

We identified  
the threat,  
now what?  
protection  
plan

- Work related: documents, pictures, videos, databases...
- Operational information: SMS, phone numbers, meeting minutes...
- Personal information: anything that identifies us as individuals and as participants on a collective
- Smart data: meta-data generated from our devices, our communications, internet search, social networks...

# Common threats

Digital Self  
Defense for  
Activist

PufferFish

Threat  
Modeling

Common threats

The five  
questions

Exercise:  
Working with  
actors

Digital threats

Physical  
threats

Identifying the  
assets

Security  
indicators: be  
aware of your  
environment

We identified  
the threat,  
now what?  
protection  
plan

- Theft
- Lost
- Inspection
- Destruction
- Sharing/Disclosure
- Surveillance/Monitoring
- Targeted malware

# The five questions

Digital Self  
Defense for  
Activist

PufferFish

Threat  
Modeling

Common threats

The five  
questions

Exercise:  
Working with  
actors

Digital threats

Physical  
threats

Identifying the  
assets

Security  
indicators: be  
aware of your  
environment

We identified  
the threat,  
now what?  
protection  
plan

- 1 What do you want to protect?
- 2 Who do you want to protect it from?
- 3 How likely is that you will have to protect it?
- 4 How bad are the consequences of failing?
- 5 How many effort do you want to spend to protect it?

# What do you want to protect?

Digital Self  
Defense for  
Activist

PufferFish

Threat  
Modeling

Common threats

The five  
questions

Exercise:  
Working with  
actors

Digital threats

Physical  
threats

Identifying the  
assets

Security  
indicators: be  
aware of your  
environment

We identified  
the threat,  
now what?  
protection  
plan

List the data you want to protect

# Who do you want to protect it from?

Digital Self  
Defense for  
Activist

PufferFish

Threat  
Modeling

Common threats

The five  
questions

Exercise:  
Working with  
actors

Digital threats

Physical  
threats

Identifying the  
assets

Security  
indicators: be  
aware of your  
environment

We identified  
the threat,  
now what?  
protection  
plan

Who may want this data (government, companies, individuals...)

What is it going to do with your data

# How likely is that you will have to protect it?

Digital Self  
Defense for  
Activist

PufferFish

Threat  
Modeling

Common threats

The five  
questions

Exercise:  
Working with  
actors

Digital threats

Physical  
threats

Identifying the  
assets

Security  
indicators: be  
aware of your  
environment

We identified  
the threat,  
now what?  
protection  
plan

How much effort will invest for getting it?

# Threat vs Risk

Digital Self  
Defense for  
Activist

PufferFish

Threat  
Modeling

Common threats

The five  
questions

Exercise:  
Working with  
actors

Digital threats

Physical  
threats

Identifying the  
assets

Security  
indicators: be  
aware of your  
environment

We identified  
the threat,  
now what?  
protection  
plan

Threat: a bad thing that can happen

Risk: how likely is that to happen

The threat is dying from cancer, the risk is greater if you smoke.

# Actor identification - Description

Digital Self  
Defense for  
Activist

PufferFish

Threat  
Modeling

Common threats

The five  
questions

Exercise:  
Working with  
actors

Digital threats

Physical  
threats

Identifying the  
assets

Security  
indicators: be  
aware of your  
environment

We identified  
the threat,  
now what?  
protection  
plan

Every day we interact with many person  
Visualizing these actors will help making us aware of their  
presence

We have to know them so we can set an appropriate  
acceptance, deterrence or protection strategy.

# Actor identification - Exercise description

Digital Self  
Defense for  
Activist

PufferFish

Threat  
Modeling

Common threats

The five  
questions

Exercise:  
Working with  
actors

Digital threats

Physical  
threats

Identifying the  
assets

Security  
indicators: be  
aware of your  
environment

We identified  
the threat,  
now what?  
protection  
plan

- 1 Create small groups
- 2 Brainstorm all the actors you interact with
- 3 Divide the actors on three groups: Direct, Indirect, Potential

# Actor identification - Exercise notes

Digital Self  
Defense for  
Activist

PufferFish

Threat  
Modeling

Common threats

The five  
questions

Exercise:  
Working with  
actors

Digital threats

Physical  
threats

Identifying the  
assets

Security  
indicators: be  
aware of your  
environment

We identified  
the threat,  
now what?  
protection  
plan

## What is an actor?

- *An actor can be any individual, group of individuals, organization, company...*

Think also about the hidden actors you interact with

- *City council, ISP, app/device makers...*

# Actor identification - Exercise notes II

Digital Self  
Defense for  
Activist

PufferFish

Threat  
Modeling  
Common threats

The five  
questions

Exercise:  
Working with  
actors

Digital threats

Physical  
threats

Identifying the  
assets

Security  
indicators: be  
aware of your  
environment

We identified  
the threat,  
now what?  
protection  
plan

World is big

- *Think about local, regional, national and international actors when needed.*

An interaction:

- *Working together, sharing information, opposition, hangout together...*

# Actor mapping - Description

Digital Self  
Defense for  
Activist

PufferFish

Threat  
Modeling

Common threats

The five  
questions

Exercise:  
Working with  
actors

Digital threats

Physical  
threats

Identifying the  
assets

Security  
indicators: be  
aware of your  
environment

We identified  
the threat,  
now what?  
protection  
plan

Actors interact with each other

# Actor mapping - Exercise description

Digital Self  
Defense for  
Activist

PufferFish

Threat  
Modeling

Common threats

The five  
questions

Exercise:  
Working with  
actors

Digital threats

Physical  
threats

Identifying the  
assets

Security  
indicators: be  
aware of your  
environment

We identified  
the threat,  
now what?  
protection  
plan

- 1 Place the actors on the board with you on the center
- 2 Map the relation between the different actors following the legend
- 3 Identify the weight of each actor

Tip: You can make short statements about the relations

# Actor mapping - Relation legend

Digital Self  
Defense for  
Activist

PufferFish

Threat  
Modeling

Common threats

The five  
questions

Exercise:  
Working with  
actors

Digital threats

Physical  
threats

Identifying the  
assets

Security  
indicators: be  
aware of your  
environment

We identified  
the threat,  
now what?  
protection  
plan

- Close: Positive and regular relation (straight line)
- Alliances: Coordinate their activities (double line)
- Conflict: Antagonistic relationship (joggled line)
- Violent conflict: Aggression between both parties(double joggled line)
- Compulsion: The actor A has influence over the actor B (an arrow)
- Interdependent: they are dependent (double arrow)
- Weak or unknown: Hard to identify

# How can I be attacked?

PufferFish

Threat  
Modeling

Common threats

The five  
questions

Exercise:  
Working with  
actors

Digital threats

Physical  
threats

Identifying the  
assets

Security  
indicators: be  
aware of your  
environment

We identified  
the threat,  
now what?  
protection  
plan

## Objective:

Assist refugees: feed them, give them collected clothing...

## Threats:

- Harassment of arrest by the police
- Confiscation of the material
- Loss of data and compromise our contacts as a result

## Prevention actions:

- Alert colleagues that won't be there
- List the possible aggressors and how to contact them
- Communicate with someone after the action once everything is finished
- If you get testimonies or someone tells you about a right vulneration get the information on a encrypted device
- Clear your messages, emails...
- Any live information will be shared via an encrypted messenger and only with people involved

# Assist the refugees - Part II

Digital Self

actors

Digital threats

Physical  
threats

Identifying the  
assets

Security  
indicators: be  
aware of your  
environment

We identified  
the threat,  
now what?  
protection  
plan

## Response resources:

- Prepare emergency messages
- Memorize and write down your lawyers number

## Emergency plan:

- Notify lawyers when someone is arrested
- Call allied organizations without disclosing sensitive information
- Don't talk to the police
- Encrypt the device before arrest if possible

## Well being considerations:

- Eat before the action
- Rest
